RHUBARB—

Linneus.		
Good strong 2-yr. plants from divisions...	5.00	40.00

Hot-Bed Sash.

For a number of years we have been using a very good low
priced sash, and with such satisfaction that we feel justified
in passing a good thing along to our customers.

They are accurately made from clear heart, everlasting Cali-
fornia redwood. They do not shrink, swell, warp or rot. By
buying in quantity we are able to offer at the following low
prices. Sash are made for 3 rows of 10-in. glass.

3x6-ft. 1 $\frac{3}{8}$ in. thick, open \$1.40 each.

3x6-ft. 1 $\frac{3}{8}$ in. thick, glazed. \$3.25 each.

Crated and F. O. B. Cleveland, Ohio.

Sambucus Pubens.

The red-berried elder. Easily grown and will give you a
tall, background for ornamental plantings. Blooms in early
spring in almost pure white panicles and rivals the snow-
ball in beauty.

The flowers are followed by a mass of very ornamental
scarlet-red berries.

These plants will thrive in wet, sour soil where few other
desirable plants will grow.

Hardwood Shrub Cuttings.

These cuttings were carefully made for our own propagation and packed in peat moss.

We will be pleased to supply you with any of this stock provided orders reach us before we have planted it. Kindly note quantity available and give us your order early. 100 of any variety at 1000 rates.

Imported Peat Moss.

In our propagation of especially difficult subjects we are using the G. P. M. brand of imported peat moss. It costs more than the ordinary brands but we have found that the best is the cheapest in results obtained.

The use of peat moss mixed with leaf mold is a valuable aid in successfully growing Rhododendron, azaleas, and other members of the heath family.

Peat moss is shipped in bales containing about 8 bushels and will cost you \$5.00 per bale F. O. B. here. If you want to try it out in a small way we will ship you a two-bushel sack of it for \$1.50.

Seeds.

We have a small surplus of the following seeds, bought for our own use, but will divide with our customers if ordered before all are planted. All are of the highest quality. Price includes prepayment of postage by us. 1/2 lb. at lb. rates.

	Lb.
Japanese Barberry, bright clean seed	\$5.00
Abies Concolor (white fir)	4.00
Picea Pungens (Colorado blue spruce)	7.00
Picea Excelsa (Norway spruce)	3.00
Thuja Occidentalis (Am. arbor vitae)	5.00

We will have for fall sales a wide assortment of "lining out" evergreens and Rhododendrons. We will also offer an unusually fine selection of over a thousand varieties of peonies and iris.

Want List.

We want to buy for our local retail "cash and carry" trade apple, pear, plum, cherry (sweet and sour) peach trees, grape vines and an assorted list of hybrid tea and hybrid perpetual roses.

Please quote us your best cash prices on varieties you have to offer in No. 1 and medium size.
